### About Conference:

The International Conference on Advancing Technology in Engineering and Science (ICATES) is a premier platform for researchers, industry experts, and academicians. ICATES will cover key tracks, including AI, Machine Learning, and Data Science, Networking and Cyber Security, E-Learning, Social Media, and Digital Marketing, Metaverse, and Quantum Computing. The conference will showcase cutting-edge research, innovations, and discussions on emerging technologies. Join us for insightful sessions and networking with thought leaders shaping the future of technology!

### About Xavier Institute of Engineering (XIE):

The Jesuits manage Xavier Institute of Engineering (XIE). They are the members of the Society of Jesus which is an international spiritual organization of priests and brothers in the life of the Catholic Church. It was founded in 1541 by St. Ignatius of Loyola. Today, 450 years after its foundation, the Jesuits are spread all over the world and happen to be the largest religious organization in the church. There are over 20,000 Jesuits working all over the world engaged in educational, social, scientific and other fields.

### About The Institution of Engineering and Technology (IET):

The Institution of Engineering and Technology (IET) is a leading professional organization for engineers and technicians, based in the UK but with a global reach. It was formed in 2006 through the merger of the Institution of Electrical Engineers (IEE) and the Institution of Incorporated Engineers (IIE). The IET provides a range of services, including professional development, networking opportunities, and industry-specific knowledge to engineers and technologists worldwide. The IET offers various qualifications, such as Chartered Engineer (CEng), Engineering Technician (EngTech), and incorporated engineer (IEng), which are recognized globally. It publishes a range of technical journals and organizes conferences, seminars, and events that keep members up to date with industry advancements. The IET also works closely with educational institutions to support the development of the next generation of engineers and innovators.

Present your best research, compete for the Best Paper Award, and win a research grant as a reimbursement of your registration fees.

### Conference Tracks:
